La cabina armadio contemporanea: una tipologia d'arredo particolare, in cui le esigenze compositive si sommano all'importanza del dettaglio e delle soluzioni per l'organizzazione dello spazio. Un tema da sempre al centro del progetto di Giuseppe Bavuso, per la ricerca di una sintesi ancora più esclusiva fra architettura e sistemi componibili. Il risultato è una collezione composta da cinque sistemi evoluti, differenti nella logica progettuale, ma accomunati da un'eccezionale versatilità, per garantire la massima possibilità di personalizzazione funzionale ed estetica.

Der moderne Kleiderschrank: ein besonderer Einrichtungsvorschlag, charakterisiert von der Vereinigung des Details mit exklusiven Lösungen, fuer die Organisation des Raumes geeignet. Exklusive Suche nach einer Synthese zwischen Architektur und modularen Systemen ist der Schwerpunkt des Projektes von Giuseppe Bavuso. Das Ergebnis ist eine Sammlung von fünf fortgeschrittenen Systemen, die ganz anders in dem Projekt aber aehnlich bei der außergewöhnlichen Vielseitigkeit sind um maximale Funktionalitaet und ästhetische Personalisierung zu gewährleisten.

Le dressing contemporaine: un meuble remarquable, dans lequel les exigences de composition augmentent l'importance des détails et des solutions pour l'organisation de l'espace. Un thème toujours au centre de la conception de Giuseppe Bavuso, dans la recherche d'une synthèse encore plus exclusive entre l'architecture et les systèmes modulaires. Le résultat est une collection de cinq systèmes avancés, différents dans la logique de conception, mais unis par une polyvalence exceptionnelle, afin de garantir la possibilité maximale de personnalisation esthétique et fonctionnelle.

El vestidor contemporaneo: un tipo particular de mueble, al cual los requisitos compositivos se añaden a la importancia de los detalles y de las soluciones para la organización del espacio. Un tema desde siempre en el centro del diseño de Giuseppe Bavuso, para la búsqueda de una síntesis aún más exclusiva entre la arquitectura y los sistemas modulares. El resultado es una colección compuesta de cinco sistemas avanzados, diferentes en la lógica de diseño, pero unidos por una versatilidad excepcional, para garantizar la posibilidad de personalización máxima funcional y estética.

Contemporary walk-in closet: unique system combining fundamental requirements, care for details and space arrangement solutions. Giuseppe Bavuso has always been focused on this project, aiming at the most exclusive synthesis of architecture and modular systems. The result is a collection made up of five fully-developed systems, with different design approach, but sharing great flexibility to obtain highest aesthetic and functional customization, technology and design, thus meeting any project.

Cover

Design Giuseppe Bavuso

Closing system equipped with single glazed doors in glass or porcelain. The core of the Cover project are the uprights, fixed to the ceiling and to the floor, which collect the invisible hinges of the doors and the exclusive integrated internal led lighting system. Shelves, clothes hangers, trays and drawers are fixed to the uprights with a joint system, without visible screws, which allows a free and easily adjustment over the time.

Sistema di chiusura attrezzato con ante battenti monofronte in vetro o grès. Fulcro del progetto Cover sono i montanti, fissati a soffitto e a pavimento, che raccolgono i cardini invisibili delle ante e l'esclusivo sistema integrato di illuminazione interna a led. Mensole, aste portabiti, vassoi e cassetiere vengono fissati ai montanti con un sistema ad incastro, senza viti a vista, che consente una disposizione libera e modificabile nel tempo con estrema facilità.

Flügeltuer-Einbausystem mit Frontfüllungen aus Glas oder Grès. Schwerpunkt dieses Möbel-systems ist die, zwischen Decke und Boden verspannte Trägerkonstruktion, welche die nicht sichtbaren Scharniere der Türen und die integrierte Led Innenbeleuchtung aufnimmt. Ablageböden, Kleiderstangen, Auszüge und hängende Schubladenelemente werden von hinten in die Träger eingehängt. Durch dieses, kann man mit Flexibilität die Position den Zubehörteilen ändern.

Système modulaire équipé de portes vitrées simples en verre ou en grès. Le cœur du projet Cover sont les montants fixés au plafond et au sol, qui comprennent les charnières invisibles des portes et l'exclusif éclairage intérieur led intégré. Les étagères, les tiges porte manteaux, les étagères extractibles et les blocs tiroirs sont fixés aux montants avec un système de verrouillage, sans vis visibles, ce qui permet un montage libre et modifiable dans le temps avec une extrême facilité.

Sistema de cierre equipado con hojas batientes monofaciales en cristal o grès. El núcleo del proyecto Cover son los montantes, fijados al techo y al suelo, que recogen las bisagras invisibles de las puertas y el exclusivo sistema integrado de iluminación led interna. Estanterías, barras de colgar, bandejas y cajoneras se fijan a los montantes con un sistema de enganche, sin tornillos visibles, que permite una disposición libre y modificable en el tiempo con extrema facilidad.

Storage systems

Il cuoio rigenerato, disponibile nelle varianti argilla e castoro, è vero cuoio naturale, ricavato da un processo di riutilizzo pre-consumer che non va ad incidere ulteriormente sulle risorse. Finiture frutto di un approccio ecosostenibile concreto e di tecnologie esclusive, che coinvolgono vista e tatto per creare soluzioni contraddistinte da un feeling naturale contemporaneo.

The regenerated leather, available in the argilla and castoro finishings, is real natural leather, made from a process of pre-consumer re-use which is not further affecting natural resources. These finishings are the result of a concrete eco-friendly approach and unique technologies, involving sight and touch, thus creating solutions characterized by a contemporary natural feeling.

Regeneriertes Leder, verfuegbar in der Ausfuehrungen argilla und castoro, ist echtes naturliches Leder welches aus einem Prozess der Wiederverwertung entsteht, ohne die natürlichen Ressourcen zu belasten.

Oberflächen die Aufgrund eines konkret ökosensiblen und technisch exklusiven Ansatzes entstanden sind und das Sehen und den Tastsinn einbeziehen, um einen zeitlos natürlichen Eindruck zu vermitteln.

Le cuir régénéré, disponible en couleur argilla et castoro, est vrai cuir naturel, produit à partir d'un processus de réutilisation pré-consommation qui n'affecte pas les ressources. Les finitions sont le résultat d'une approche ecosostenible et de technologies concretes et uniques, impliquant la vue et le toucher pour créer des solutions caractérisées par un sentiment naturel contemporain.

El cuero regenerado, disponible en las variantes argilla y castoro, es un cuero natural, que se obtiene por un proceso de re-uso pre-consumidor que no va a afectar a los recursos. Estos acabados son el resultado de un enfoque sustentable y de tecnologías exclusivas, que unen vista y tacto para crear soluciones que se caracterizan por un feeling natural contemporáneo.

Ripiani estraibili Pull out trays: 14 brown e 150 cuoio rigenerato castoro
Contentitori Organizer: 15 noce
Porta orologi, vaschetta concava, vaschetta con fessure
Watch holder, concave box and box with jewels slots: 250 ecopelle castoro

Le ante Cover sono realizzate in vetro singolo temperato di spessore 4 mm, disponibili in tutti i vetri temperati di sicurezza: trasparenti, riflettenti, acidati, specchio e laccati opachi, lucidi e reflex nei 74 colori Ecolorsistem, in alternativa la versione in gres, disponibile in due varianti di colore crema e moka, per un effetto naturale e materico. La maniglia in metallo pressofuso, integrata nell'anta, è uno degli elementi di caratterizzazione estetica del progetto Cover. Il sistema prevede anche mensole in vetro con ring in alluminio, che offrono l'ulteriore possibilità di top rivestito in cuoio rigenerato castoro.

The Cover doors are made of 4 mm thick single tempered glass, available in all safety tempered glass: transparent, reflective, etched, mirror and mat, glossy and reflex lacquered in the 74 Ecolorsistem colors, and as second option in porcelain, available in two colors crema and moka, for a natural and material effect.

The dye casting metal handle, integrated into the door, is one of the main aesthetic element of the Cover project. The system is also available with glass shelves with aluminium ring, providing an additional possibility to be covered with castoro regenerated leather.

Die Türen sind aus 4 mm dickem gehärteten Glas, erhältlich in allen Sicherheitsglasarten: transparent, reflektierend, geätzt, Spiegel- und mat, glänzend und Reflex lackiert in den 74 Ecolorsistem Farben, alternativ auch in der Gres Version, verfügbar in zwei Creme- und Moka-Farben, für einen natürlichen und stofflichen Effekt. Der Druckguss-Griff der in die Tür integriert ist, ist eines der ästhetischen Charaktereigenschaften des Programms Cover. Das System sieht auch Glasböden mit Alu-Umrundung vor, die mit Castoro Leder Abdeckung ausgestattet werden können.

Les portes Cover sont en verre trempé simple de 4 mm d'épaisseur, disponible dans tous les verres trempés de sécurité: transparent, réfléchissant, acidé, miroir et laqué mat, brillant et reflex dans les 74 couleurs Ecolorsistem, ou en version céramique, disponible en deux couleurs Crema et Moka, pour un effet naturel et matériel.

La poignée en métal moulé, intégrée dans la porte, est un élément de caractérisation esthétique du projet Cover. Le système comprend également des étagères en verre avec structure en aluminium, qui sur demande peuvent être recouverts par un plateau en cuir régénéré finition castoro.

Las puertas Cover están hechas de solo cristal templado de 4 mm de grosor, disponible en todos los cristales templados de seguridad: transparentes, reflectantes, acidados, espejo y lacados mate, brillante y reflex en los 74 colores Ecolorsistem, en alternativa la versión en gres, disponible en dos colores Crema y Moka, para un efecto natural y material. La manilla en metal injectado, integrada en la puerta, es una de los elementos de caracterización estética del proyecto Cover. El sistema prevé también estantes en cristal con aro en aluminio, que ofrecen la posibilidad del top revestido en cuero regenerado castoro.

Mensola Shelf: 25 melaminico larice carbone
Asta portabiti Cloth hangers: 150 rigenerato castoro
Struttura Structure: 14 brown
Ante in vetro Glass doors: 103 grigio ardesia opaco

Perfettamente ingegnerizzato per essere montato senza viti a vista, il sistema Cover consente di realizzare cabine armadio e nicchie attrezzate in piena continuità con gli ambienti, senza soglia a pavimento. Pensato per integrarsi perfettamente nelle nicchie e nei vani grazie alla realizzazione sempre su misura, Cover è definito dall'idea di trasformare le ante nell'unico elemento strutturale dell'armadio, a cui l'attrezzatura si aggancia liberamente, senza alcuna necessità di intervenire sulle pareti.

Perfectly engineered to be fitted without visible screws, the Cover system allows to create walk-in wardrobes and equipped niches without threshold on the floor. Cover is designed to perfectly fit niches and spaces, and is defined by the idea of making doors the only structural element of the cabinet. The internal equipment is fixed to this structural element, without any further wall fixing.

Perfekt entwickelt, um ohne Schrauben montiert zu werden, ermöglicht das System Cover begehbarer Kleiderschränke und Nischen ohne Schwelle auf dem Boden zu gestalten. Cover Kennzeichen sind die Türen als Strukturelement des Schranks, wobei die verschiedene Elemente stufenlos befestigt werden und die Rück frei bleibt.

Parfaitement conçu pour être assemblé sans vis visibles, le système Cover permet de réaliser des cabines dressing et niches équipées, complètement intégrées aux espaces sans seuil au sol. Conçu pour s'adapter parfaitement dans les niches et les ouvertures grâce à la réalisation toujours sur mesure, le projet Cover transforme les portes dans le seul élément structurel du placard, auquel fixer tous les accessoires à l'intérieur, sans qu'il soit nécessaire d'intervenir sur les murs.

Perfectamente diseñado para ser montado sin tornillos a la vista, el sistema Cover permite realizar vestidores y nichos equipados en plena continuidad con los ambientes, sin elementos en el suelo. Diseñado para integrarse perfectamente a los nichos y los huecos gracias a su realización siempre a medida, Cover está definido con la idea de transformar las puertas en el único elemento estructural del armario, y sirven de soporte al equipamiento interior, sin ninguna necesidad de intervenir en las paredes.

Struttura Structure: 30 alluminio
Cassettiera e basamento Drawers and floor base: 59 grigio chiaro
Top Top: 68 specchio grigio
Ripiano Shelf: 30 alluminio, 63 grigio trasparente
Vassoio portaoggetti e cesta Storage tray and box: 152 rigenerato argilla

Cover è un sistema di ante battenti monofronte in vetro o gres che possono essere utilizzate per chiudere gli ambienti dedicati alle cabine armadio o, in alternativa, per trasformare le nicchie in veri e propri armadi a muro. Le ante con apertura battente, con struttura in estruso di alluminio, vetro singolo o gres spessore 4 mm, sono dotate di maniglie in pressofusione di zama con nottolino fisso o con serratura e chiave.

Cover is a single-sided glass or porcelain hinged door system, that can be used to close area dedicated to the walk-in closets or, alternatively, to transform niches into real wardrobes. The 4 mm thick doors glass or porcelain with hinged opening, with extruded aluminum structure, are equipped with handles in die-casting aluminium with fixed revolving nut or with lock and key.

Fluegeltuer-Einbausystem mit Frontfüllungen aus Glas oder Keramik, die ermoeglichen Ankleide Raumligkeiten zu begrenzen oder Niche als eingebaute Schrankraumen zu verwenden.

Fluegeltuer mit strangpresster Aluminium Struktur und 4 mm Glas oder Grès Scheibe, zusammen mit integrierter Druckguss-Griff mit Verriegelung oder Schluessel.

Cover est un système de porte battante uniface en verre ou grès, qui peut être utilisé pour fermer des espaces dressings ou pour transformer les niches en vrais placards. Les portes battantes, avec structure en aluminium extrudé, en verre ou grès de 4 mm d'épaisseur, sont équipées de poignées en aluminium moulé sous pression avec verrou fixe ou avec serrure et clé.

Cover es un sistema de puertas batientes mono frontal de vidrio o gres que pueden ser utilizadas para cerrar los entornos dedicados a los vestidores o, alternativamente, para transformar los nichos en armarios a pared reales. Las puertas con apertura batiente, con estructura de aluminio extruido, vidrio o gres de 4 mm de espesor, están equipadas con manillas en inyección de zamak con condena fija o con cerradura y llave.

L'attrezzatura completa del sistema Cover prevede basamenti, mensole, aste portabiti, ripiani estraibili e cassetiere. Tutti gli elementi vengono fissati ai montanti con un sistema ad incastro, senza viti a vista, e la disposizione può essere modificata e variata nel tempo con estrema facilità.

Cover system accessories include floor bases, shelves, cloth-hanger rods, pull out shelves and drawer units. All the elements are fixed directly to the uprights, without visible screws, and the layout can be modified any time in an easy way.

Die Ausstattung des Systems Cover bietet Basisboden, Fachboden, Kleiderstange ausziehbare Fachboden und Schubladenelemente an. Alle Elemente sind an den Pfosten befestigt mit einem Verbindungssystem ohne sichtbare Schrauben und die Verstellung kann im Laufe der Zeit leicht verändert werden.

L'équipement complet du système Cover comprend bases au sol, étagères, tiges porte-manteaux, étagères extractibles et bloc tiroirs. Tous les éléments sont fixés aux montants avec un système à encastrement sans vis visibles et la disposition peut être facilement modifiée ensuite.

El equipo completo del sistema Cover proporciona soportes, estantes, barras colgantes, estantes extraíbles y cajoneras. Todos los elementos se fijan a los montantes con un sistema a encaje, sin tornillos a vista, y la disposición se puede modificar y variar en el tiempo con facilidad extrema.

Concezione progettuale
Design concept

Il progetto Cover rinnova la concezione progettuale della nicchia o dell'armadio a muro, trasformando le ante nell'unico elemento strutturale necessario a cui agganciare l'attrezzatura interna. Come tutti i sistemi Rimadesio, Cover è dotato di una serie di accorgimenti esclusivi, come i montanti muniti di un esclusivo sistema di regolazione invisibile in tre direzioni, che consente una perfetta messa in bolla delle ante, anche con composizioni di grandi dimensioni. L'attrezzatura completa del sistema Cover prevede basamenti, mensole, aste portabiti, ripiani estraibili e cassetiere. Tutti gli elementi vengono fissati ai montanti con un sistema ad incastro, senza viti a vista, e la disposizione può essere modificata e variata nel tempo con estrema facilità.

The Cover project renews the design concept of the niche or wardrobe, transforming the doors in the one and only structural element, necessary to fix the internal equipment. As all Rimadesio systems, Cover presents some exclusive features, such as the uprights equipped with a three direction invisible adjustment system, that allows a perfect leveling of the doors, even with compositions of large dimensions. Cover system accessories include floor bases, shelves, cloth-hanger rods, pull out shelves and drawer units. All the elements are fixed directly to the uprights, without visible screws, and the layout can be modified any time in an easy way.

Das Projekt erneuert das Konzept der Nische oder den Schrankraum. Die Türen sind die einzige strukturelle Elemente wo wird die Innenausstattung fixiert. Wie alle Rimadesio Systeme hat Cover eine exklusive System mit Pfosten, die eine perfekte Nivellierung der Türen erlaubt, auch mit großen Kompositionen. Die Ausstattung des Systems Cover bietet Basisböden, Fachböden, Kleiderstange ausziehbare Fachböden und Schubladenelemente an. Alle Elemente sind an den Pfosten befestigt mit einem Verbindungssystem ohne sichtbare Schrauben und die Verstellung kann im Laufe der Zeit leicht verändert werden.

Le projet Cover renouvelle la conception d'équiper une niche ou un placard en transformant les portes dans le seul élément structurel nécessaire auquel fixer tous les accessoires à l'intérieur. Comme tous les autres systèmes Rimadesio, Cover est doté d'une série de détails exclusifs, comme les montants, équipés d'un système invisible exclusif de réglage en trois directions, qui permet une parfaite mise à niveau des portes, même avec des grandes compositions. L'équipement complet du système Cover comprend bases au sol, étagères, tiges porte-manteaux, étagères extensibles et bloc tiroirs. Tous les éléments sont fixés aux montants avec un système à encastrement sans vis visibles et la disposition peut être facilement modifiée ensuite.

El proyecto Cover renueva la concepción de proyecto de los espacios pequeños o del armario contra pared, transformando las hojas en el único elemento estructural necesario a los cuales enganchar el equipo interior. Como todos los sistemas Rimadesio, Cover está dotado de una serie de recursos exclusivos, como los montantes que tienen un exclusivo sistema de regulación invisible en tres direcciones, que permiten una perfecta nivelación de las hojas, también en composiciones de grandes dimensiones. El equipo completo del sistema Cover proporciona soportes, estantes, barras colgantes, estantes extraíbles y cajoneras. Todos los elementos se fijan a los montantes con un sistema a encastre, sin tornillos a vista, y la disposición se puede modificar y variar en el tiempo con facilidad extrema.

Cover freestanding

Design Giuseppe Bavuso

Cover freestanding is the self-supporting version of the Cover system, therefore equipped with side panels and back panels, thus creating linear or corner compositions, always custom made. The perfect finish of the back panels and the inside of the doors make Cover freestanding an ideal system also for niche solutions, complete with integrated through way. The internal equipments are fixed directly to the uprights, without visible screws, which allows a free and easily adjustement over the time.

Cover freestanding è la versione autoportante del sistema Cover, dotato quindi di fianchi laterali e pannelli schienali per consentire la definizione di composizioni lineari o con angoli, sempre a misura. La perfetta finitura degli schienali e dell'interno delle ante rendono Cover freestanding un sistema ideale anche per soluzioni interrate, completo di passaggi integrati per accedere a cabine armadio o ambienti di servizio. Le attrezzature interne vengono fissate ai montanti con un sistema ad incastro, senza viti a vista, che consente una disposizione libera e modificabile nel tempo con estrema facilità.

Cover freestanding ist die selbsttragende Version des Cover Systems, das daher mit Seiten- teilen und Rückwänden ausgestattet ist, um lineare oder eckige Kompositionen auf Maß zu definieren. Das perfekte Finish der Rückenlehnen und der Türinnenseiten macht Cover freestanding zu einem idealen System auch für Zwischenwandlösungen mit integrierten Durchgängen. Die inneren Befestigungen sind an den Pfosten mit einem Verriegelungssystem ohne sichtbare Schrauben befestigt, was eine freie und leicht modifizierbare Anordnung im Laufe der Zeit ermöglicht.

Cover freestanding est la version autoportante du système Cover, donc équipée avec des panneaux latéraux et de fond, pour créer des compositions linéaires ou en angle, toujours sur mesure. La finition parfaite des panneaux de fond et l'intérieur des portes permettent à Cover freestanding de devenir un système idéal aussi pour des solutions de séparation, complètes avec des passages intégrées. Les équipements internes sont fixées aux montants avec un système de verrouillage, sans vis apparentes, ce qui permet une disposition libre et facilement modifiable dans le temps.

Cover freestanding es la versión autoportante del sistema Cover, equipada por lo tanto de paneles laterales y paneles traseros para permitir la definición de composiciones lineales o en ángulo, siempre a medida. El perfecto acabado de los paneles traseros y del interior de las puertas hacen de Cover freestanding un sistema ideal también para soluciones entre paredes, completo de hueco de pasos para acceder a vestidores o áreas de servicio. Los elementos accesorios internos se fijan a los montantes con un sistema de enganche, sin tornillos visibles, que permite una disposición libre y modificable en el tiempo con extrema facilidad.

In alluminio e vetro, completamente autoportante, Cover freestanding rappresenta la naturale evoluzione del sistema Cover. Liberamente componibile e adattabile agli spazi con la massima precisione grazie al servizio su misura, Cover freestanding rappresenta un concentrato di innovazione tecnologica e funzionale, una soluzione evoluta alle esigenze progettuali degli spazi contemporanei. L'organizzazione dello spazio interno è risolto con una serie di componenti e soluzioni che associano essenzialità del design, massima praticità e ricercatezza.

In aluminium and glass, totally self-supporting, Cover freestanding represents the natural evolution of the Cover system. Completely modular and adaptable to spaces with a maximum precision, thanks to its customization, Cover freestanding is a concentrate of technological and functional innovation, a solution evolved to the needs of the contemporary spaces. The organization of the interior space is achieved through different accessories and possible solutions, combining essential design, maximum practicality and refinement.

Aus Aluminium und Glas, vollständig selbsttragende, Cover freestanding stellt die natürliche Entwicklung des Systems Cover dar. Frei modular und immer nach Mass passt sich Cover massgenau an jeden Raum, dank der maßgeschneiderten Service, mit der Verbindung der technologischen Innovation und Funktionalität, um Lösungen für jeden modernen Wohnbereich anzubieten. Die Organisation des Innenraums ist mit einem ausreichenden Wahl von Zubehör gelöst mit der Verbindung von wesentlichen Design, maximale Funktionalität und Finesse.

En aluminium et verre, entièrement auto-portante, Cover freestanding représente l'évolution naturelle du système Cover. Librement modulables et adaptables aux différents espaces avec une précision maximale grâce au sur mesure, Cover freestanding représente une concentration de l'innovation technologique et fonctionnelle, une solution sophistiquée pour les exigences de conception des espaces contemporains. L'organisation de l'espace intérieur est résolu avec un ensemble d'accessoires et de solutions, qui combinent le design essentiel, une forte fonctionnalité et style recherché.

Aluminio y vidrio, Cover freestanding es totalmente auto-portante y representa la natural evolución del sistema Cover. Libremente componible y adaptable a los espacios con la máxima precisión gracias al servicio de personalización a medida, Cover freestanding es un concentrado de la innovación tecnológica y funcional, una solución evolucionada para necesidades de proyecto de los espacios contemporáneos. La organización del espacio interior se resuelve con un conjunto de componentes y soluciones que combinan un diseño esencial a la máxima practicidad y sofisticación.

Struttura Structure: 83 piombo
Vetro Glass: 63 grigio trasparente
Bassamento e top Floor base and top: 09 melaminico rovere grigio
Mensole Shelves: 63 grigio trasparente
Accessori estraibili Pull out accessories: 152 rigenerato argilla

Un sistema armadio di ultima generazione, nel quale tutti i componenti, dalle ante agli accessori, dalla struttura ai complementi, sono realizzati su misura grazie a un sistema di produzione "custom-made". La tecnologia utilizzata permette di creare una composizione caratterizzata da un vano di passaggio dedicato, che consente di accedere alla cabina armadio vera e propria transitando attraverso la quinta architettonica che rappresenta il fronte principale sulla zona notte.

A storage system of the latest generation, in which all components are custom made, from the doors to the accessories, from the structure to complements. The advanced technology allows to create a composition with a passageway, with direct access to the real walk-in closet, through the architectural backdrop, which is the main front of the night area.

Ein modernes Schrankssystem, welchen Komponenten, von Tueren bis zu Zubehoeren, von der Struktur bis zu Komplementen, in Sondermasse produziert werden, danke zu einem "custom-made" Verarbeitungssystem. Cover freestanding Technologie erlaubt Oeffnungspassage umzubauen, wie eine architektonische Kulisse, durch die kann man direkt auf den Schlafbereich eintreten.

Un système armoire de nouvelle génération, dans lequel tous les composants, des portes aux accessoires, de la structure aux complements, sont toujours réalisés "sur mesure". La technologie avancée permet de créer une composition caractérisée par un passage, qui donne accès au dressing, à travers la toile architecturale, qui est le front principal sur la zone nuit.

Un sistema de armario de ultima generación, en el que todos los componentes, de las puertas a los accesorios, de la estructura a los accesorios, estan realizados a medida gracias a un sistema de producción "custom-made". La tecnología permite crear una composición caracterizada por un hueco de paso dedicado, que facilita el acceso al vestidor a través del marco arquitectónico que representa el frente principal de la zona de noche.

Struttura Structure: 83 piombo
Ante Doors: 104 grigio ombra opaco
Fianchi intermedi di passaggio e schienale Side panels for passage opening and back panels: 63 grigio trasparente
Basamento, top e mensole Floor base, top and shelves:
09 melaminico rovere grigio
Mensole Shelves: 09 melaminico rovere grigio
Accessori Accessories: 152 cuoio rigenerato argilla

La cassetiera sospesa a due cassetti è ancorata esclusivamente ai montanti strutturali delle ante. Il piano superiore è realizzato con un profilo continuo in alluminio, realizzato con la tecnologia esclusiva "folding" nel quale si inserisce il top per un'estrema pulizia formale. I cassetti sono dotati di guide push ad estrazione totale di ultima generazione per una perfetta funzionalità.

The suspended drawer unit with two drawers is only fixed to the uprights of the doors. The upper top is made of a continuous aluminium profile, created with the exclusive "folding" technology, in which the top is inserted with extremely clean design. The drawers are equipped with push opening and total extraction runners of the latest generation for a perfect functionality.

Abgehaengtes Schubladenelement ist direkt zu strukturellen Pfosten den Tueren verbindet. Die Abdeckungsplatte besteht aus einem Profil aus Aluminium, realisiert dank zur "Folding" Verarbeitung, die erlaeubt eine extreme formliche Sauberkeit. Schubladen sind mit push-Voellaufzuegen ausgestattet um eine perfekte Funktionalitaet zu erreichen.

Le bloc tiroir suspendu avec deux tiroirs n'est fixé qu'aux montants des portes. Le plateau supérieur est constitué d'un profil continu en aluminium, réalisé avec la technologie exclusive "folding", dans lequel le plateau est fixé avec un résultat extrêmement propre. Les tiroirs sont équipés avec des guides avec ouverture à pression et avec extraction totale de la dernière génération pour une fonctionnalité parfaite.

La cajónera colgante a dos cajones está anclada exclusivamente a los montantes estructurales de las puertas. La planta superior está realizada con un perfil continuo en aluminio, creado con la tecnología exclusiva "folding" en la que se inserta el top para una limpieza estética extrema. Los cajones están equipados con guías push a extracción total de última generación para la funcionalidad perfecta.

Un sistema dalla componibilità infinita. L'evoluta tecnologia costruttiva declinata in 20 profili specifici in alluminio estruso e da un infinito numero di accessori e di giunzioni meccaniche, permette di soddisfare qualsiasi esigenza progettuale: dalla "teca" freestanding trasparente, alla composizione ad angolo, dall'interparete con vano di passaggio, alla composizione in nicchia. Senza dimenticare l'assoluta personalizzazione dello spazio interno.

I montanti anteriori e posteriori sono dotati di sistema di illuminazione a led integrato opzionale, controllato da una centralina elettronica.

A system with infinite modularity. The advanced construction technology declined in 20 specific profiles of extruded aluminium and an infinite number of accessories and mechanical joints, allow to meet any project requirements: from the freestanding transparent "cabinet" to the corner composition, to the composition with a passage or in niche. Not to mention the absolute personalization of the interior space. Front and back uprights are provided with optional integrated led lighting system, managed from an electrical junction box.

Modularitaet ohne Ende. Die entwickelte strukturelle Technologie, die besteht aus 20 verschiedenen bestimmten extrudierten Profilen aus Aluminum, unendlichlen Zubehoeren und mechanischen Gelenken, erlaebt jede einzelne Planungsmaeglichkeit zu erfüllen: vom transparentem freestanding "Schaukasten" bis zu eckigen Anlagen, Kompositionen zwischen Waenden und auf einer Niche, ohne die Personalizierung den Raeumen zu vergessen. Frontale und hinteres Pfosten mit optionaler, integrierter Led Beleuchtung, die durch Elektro Speiseleistung kontrolliert wird.

Un système avec une modularité infinie. La technologie de production avancée, avec 20 profils spécifiques en extrusion d'aluminium et un nombre infini d'accessoires et de joints mécaniques, peut satisfaire toutes les exigences du projet: de la "composition" freestanding totalement transparente, à celle en angle, à la composition avec un passage, à celle dans une niche. Sans oublier la personnalisation absolue de l'espace intérieur. Les montants antérieurs et arrières sont équipés avec un système d'éclairage led optionnel et intégré, commandé par une unité électronique de commande.

Un sistema de modularidad infinita. La avanzada tecnología de construcción declinada en 20 perfiles específicos de aluminio extruido y un número infinito de accesorios y juntas mecánicas, permite poder satisfacer cualquier requisito del proyecto: de la "vitrina" freestanding transparente a la composición angular de la versión entre paredes con hueco de paso, a la composición en luz. Por no hablar de la personalización absoluta del espacio interior. Los montantes delanteros y traseros están equipados con sistema de iluminación opcional led integrado, controlado por una unidad electrónica de control.

Completamente autoportante, Cover freestanding rappresenta la naturale evoluzione del sistema Cover. Liberamente componibile e adattabile agli spazi con la massima precisione grazie al servizio su misura, Cover freestanding rappresenta un concentrato di innovazione tecnologica e funzionale, una soluzione evoluta alle esigenze progettuali degli spazi contemporanei. L'organizzazione dello spazio interno è risolto con una serie di componenti e soluzioni che associano essenzialità del design, massima praticità e ricercatezza.

Le finiture ricercate, i colori di tendenza, la perfezione degli accessori: Cover freestanding è un progetto coordinato a 360° nel quale ogni elemento della composizione concorre alla definizione di un insieme omogeneo, raffinato, elegante. La struttura in alluminio è disponibile in sei finiture (alluminio, nero, brown, piombo, platino e bronzo), le ante in vetro temperato nelle 70 tonalità lucide e opache della gamma Ecolorsyste, nei 4 vetri reflex e in tutti i vetri trasparenti, acidati, riflettenti, e specchio oltre alle due finiture gres crema e moka, per un totale di 87 finiture.

The sophisticated finishes, the trendy colors, the perfection of accessories: Cover freestanding is a coordinated project at 360°, in which each element of the composition contributes to define a homogeneous, refined, elegant system. The aluminum structure is available in six finishes (aluminum, black, brown, piombo, platino and bronzo), the tempered glass doors in the 70 glossy and mat colours of the Ecolorsyste range, in the 4 reflex glasses, in all transparent, etched glasses, reflective and mirror glasses, in addition to the two finishes crema and moka porcelain, for a total of 87 finishes.

Gewaehlte Ausfuehrungen, trendige Farben und Perfektion den Zubehoeren: Cover freestanding ist einer Projekt auf 360°, welchen Elementen bauen eine homogene, elegante und raffinierte Gesamtheit um. Die Struktur aus Aluminium ist in sechs Ausfuehrungen verfuegbar (Alluminio, nero, brown, piombo, platino und bronzo). Fluegeltuer sind in 70 Ecolorsyste matt, hochglanz, 4 reflex und allen trasparenten, satinierten und verspiegelten Glassausfuehreungen verfuegbar, außer Gres Crema und Moka, um insgesamt 87 verfuegbaren Ausfuehrungen anbieten zu koennen.

Les finitions sophistiquées, les couleurs de tendance, la perfection des accessoires: Cover freestanding est un projet coordonné à 360°, dans lequel chaque élément de la composition contribue à la définition d'un ensemble homogène, raffiné et élégant. La structure en aluminium est disponible en six finitions (aluminium, noir, brown, piombo, platino et bronzo), les portes en verre trempé dans 70 teintes brillantes et mates de la gamme Ecolorsyste, dans les 4 verres réflex, dans tous les verres transparents, acidées, réfléchissant et miroir, en plus des deux finitions grès crème et moka, pour un total de 87 finitions.

Los acabados sofisticados, los colores de moda, la perfección de los accesorios: Cover freestanding es un proyecto coordinado a 360 ° en el que cada elemento de la composición contribuye a la definición de un conjunto homogéneo, refinado, elegante. La estructura de aluminio está disponible en seis acabados (aluminio, negro, brown, piombo, platino y bronzo), las puertas de vidrio templado en los 70 tonos brillantes y mate de la gama Ecolorsyste, en los 4 vidrios reflex, en todos los cristales transparentes, acidados, reflectantes y espejo, además de los dos acabados Gres crema y Moka, por un total de 87 acabados.

Concezione progettuale
The design concept

Le alte prestazioni di Cover freestanding nascono da una struttura in alluminio tecnologicamente innovativa. I montanti, su cui si regolano le ante ospitano l'illuminazione a led. Il sistema prevede la versione freestanding, con lato posteriore e fianchi completamente rifiniti, oppure la versione interparete, con fasce di aggiustaggio opzionali superiori e laterali, per chiudere gli eventuali fuori squadra delle pareti. Le ante battenti sono dotate di chiusura magnetica e maniglie incassate a filo, con un'esclusiva serratura opzionale frutto di un progetto innovativo dedicato. Il basamento e il top sono realizzati sempre in melaminico, disponibile in finitura larice carbon, rovere grigio e olmo.

The high performances of Cover freestanding comes from a technological advanced aluminium structure. The uprights, on which the doors are adjusted, conceal the led lighting. The system provides the freestanding version, with sides and back panels completely well finished, or the version between the walls, with optional adjusting fillers for both sides and top, to close eventual differences in the wall. The hinged doors are equipped with magnetic closing device. The handles are recessed, with an optional exclusive lock, result of a dedicated innovative project. The floor base and the top are always in melamine, available in coal larch, gray oak and elm finishing.

Der hohe Leistungsumfang des Cover Freestanding ergibt sich aus einer technologisch innovativen Aluminiumstruktur. Die Stände, auf dem die Platten angepasst werden, verfügen über eine Led-Beleuchtung. Das System sieht die Version freestanding mit vollständig geschlossenen Rückseiten und Seiten vor. Alternativ gibt es die Ausführung "interparete", mit optionaler obiger und seitlicher Einstellung der Wände. Die Drehtüren haben ein magnetischen Schlossmechanismus und eingelassene Griffe. Optionell ist das Schloss. Basisboden und Abdeckplatte sind immer in Melamin Kohlaerche, Eiche grau oder Ulme.

Les hautes performances de Cover freestanding proviennent d'une structure en aluminium technologiquement innovante.

L'éclairage led peut être installé sur les montants, qui régulent les portes. Le système est disponible en version freestanding avec l'arrière et les côtés complètement finis, ou en version entre murs avec fileurs latéraux et supérieurs optionnels, pour fermer les différences d'épaisseur de parois. Les portes battantes sont équipées avec fermeture magnétique et les poignées encastrées à fleur avec une serrure en option, résultat d'un projet exclusif innovant dédié. La base au sol et le top sont toujours en mélamine, disponible en finition mélèze carbon, chêne gris et orme.

El alto rendimiento de Cover freestanding surgen de una estructura en aluminio tecnológicamente innovadora. Los montantes en los cuales se ajustan las puertas acomodan una iluminación por leds. El sistema prevé la versión freestanding, con parte trasera y paneles laterales completamente acabados, o la versión interparede, con bandas de ajuste opcionales superiores y laterales, para cerrar cualquier descuadre de las paredes. Las puertas batientes están dotadas de un cierre magnético y manetas empotradas a ras, con una exclusiva cerradura opcional resultado de un proyecto innovador dedicado. La base y el top se hacen siempre en melamina, están disponibles en acabado alerce carbón, roble gris y olmo.

Dress bold

Dress bold is a system that creates highly personalized walk-in closets with the option of customized compositions for linear, corner and C-shaped solutions. Two aesthetic possibilities: with visible uprights or with back panels available in glossy or mat glass, fabric, wood, mirror and provided with optional upper led lighting. The accessories, which can be freely placed along the wall upright by means of a patented expansion fixing system that requires no holes, include: shelves and floor bases, cloth hangers, cloth lift, drawer units, trouser racks and pull out trays.

Dress bold è un sistema per creare cabine armadio personalizzabili al massimo grado, con possibilità di composizioni su misura in soluzioni lineari, ad angolo e a C. Due le possibilità estetiche: con i montanti a vista o con pannelli a parete, disponibili in vetro laccato lucido o opaco, tessuto, legno, specchio, e dotati di illuminazione a led superiore opzionale. Gli accessori, liberamente posizionabili lungo il montante a parete, grazie al sistema brevettato di fissaggio ad espansione senza fori, comprendono: mensole e basamenti, aste portabiti, appendiabiti inclinabile, cassettiere, portapantalon e vassoi estraibili.

Das System Dress bold wurde für Schrankzimmer mit maximaler individueller Gestaltbarkeit entwickelt und bietet maßgeschneiderte Kombinationsmöglichkeiten für Lösungen in Reihen-, Eck- oder C-Anordnung. Hier sind zwei Gestaltungsmöglichkeiten gezeigt: entweder mit sichtbaren Pfosten oder mit Wandpaneelen, erhältlich in glänzendem oder mattem Glas, aus Holz, aus Spiegel und optional mit oberer Led-Beleuchtung. Das umfangreiche Zubehör lässt sich dank eines patentierten Spreizbefestigungssystems ohne Bohrungen beliebig am Wandträger anbringen und besteht aus: Regalböden und Sockelelementen, Kleiderstangen, Kleiderlift, Schubladen, Hosenhaltern und Ablageflächen in ausziehbarer Ausführung.

Dress bold est un système pour créer des dressings personnalisables avec une possibilité de compositions sur mesure en solutions linéaires, d'angle ou en forme de C. Les deux possibilités esthétiques: avec montants visibles ou avec des panneaux de fond, disponibles en verre laqué brillant ou mat, tissu, bois, miroir, et équipés avec système d'éclairage led supérieur optionnel. Les accessoires, positionnables librement sur le montant au mur, grâce au système breveté de fixation à expansion sans trous, comprennent: étagères et bases au sol, barres pendantes, porte-manteaux inclinable, blocs tiroirs, porte-pantalon et plateaux extractible.

Dress bold es un sistema para crear vestidores personalizables de alto nivel, con posibilidad de efectuar composiciones a medida mediante soluciones lineares, angulares y en forma de C. Ambas posibilidades estéticas: con montantes visibles o con paneles de pared, disponibles en vidrio lacado brillante o mate, tejido, madera, espejo, y equipada con iluminación Led superior opcional. Los accesorios, que pueden colocarse libremente a lo largo del montante de pared, gracias al sistema patentado de fijación por expansión sin orificios, incluyen: estantes y bases, barras de colgar, barra de colgar reclinable, cajoneras, portapantalones y bandejas extraíbles.

Un progetto in continua evoluzione, uno spazio che si rivela nei suoi dettagli più caratteristici grazie anche al sistema di illuminazione in grado di esaltare ogni particolare, di dare forma alle superfici, di impreziosire le texture più ricercate. In Dress bold la luce gioca un ruolo fondamentale grazie a un sistema versatile e flessibile nel tempo. Il montante in alluminio è stato completamente riprogettato e dotato di una barra elettrificata che permette di alimentare i ripiani in legno tamburato, dotati di illuminazione led.

An evolving project, a space showing its most characteristic details thanks to the lighting system, thus able to improve every detail, to give shape to surfaces, to enhance the most refined textures. With Dress bold light plays an important role, thanks to a versatile and flexible system over the time. The aluminium upright has been completely redesigned and equipped with an electric bar, allowing the wiring of the wooden honeycomb shelves, equipped with led lighting.

Ein Projekt auf staendiger Entwicklung, Raeume, die sich durch charakteristischeren Details ausdriuecken, danke zu dem Beleuchtung System auch, das jede Einzelheit erhoehet, Forme zu Oberflaechen gibt und prezioese Texture bereichert. Bei Dress bold das Licht spielt eine wichtige Rolle, danke zu einem im Zeitraum flexibelem und vielseitigem System. Pfosten aus Aluminum wuerde neu entwuerft und ausgestattet mit einer elektrischen Balken, die Holzwaben Tablare mit integrierter Led Beleuchtung versorgen.

Un projet en évolution, un espace qui se révèle dans ses détails les plus caractéristiques, grâce au système d'éclairage, qui permet d'amplifier chaque détail, de donner forme aux surfaces, d'enrichir les textures les plus recherchés. Dans le système Dress bold la lumière joue un rôle fondamental, grâce à un système polyvalent et flexible dans le temps. Le montant en aluminium a été complètement redessiné et équipé d'une barre électrique, qui permet l'alimentation des étagères en nid d'abeille, équipées d'un éclairage led.

Un proyecto en continua evolución, un espacio que se revela en sus detalles mas característicos gracias al sistema de iluminación capaz de exaltar cada detalle, dar forma a las superficies, embellecer las textures más buscadas. En Dress bold la luz juega un papel fundamental gracias a un sistema versátil y flexible en el tiempo. El montante en aluminio ha sido completamente rediseñado y equipado con una barra eléctrica que permite alimentar los estantes con paneles en madera contrachapada, equipadas con iluminación led.

A system which allows to personalize walk-in closets with custom-made linear, as well as corner and C-shaped compositions. Two aesthetical possibilities are available: with visible uprights or with wall back panels, available in lacquered glass, wood and in fabric. The accessories can be freely positioned on the wall uprights, thanks to the patented expansion fixing system, without holes.

Das System erlaubt, personenliche Schrankräume mit linearen sowohl als Ecke Lösungen, immer nach Mass, zu gestalten. Zwei sind die verfügbare ästhetische Möglichkeiten: mit sichtbaren Wandpfosten oder mit Wandpaneelen, aus lackiertem Glas, Holz und mit Stoff. Die Zubehör können frei auf den Pfosten mit dem patentierten Spreizmechanismus ohne Löcher gestellt werden.

Dress bold est le système pour personnaliser au mieux les dressings avec des compositions linéaires ou à angle, toujours sur mesure. Deux sont les possibilités esthétiques: avec les montants à vue ou avec les panneaux murales de fond, disponibles en verre laqué, bois et tissu. Les accessoires sont librement positionnables sur le montant mural grâce au système breveté de fixation à expansion sans trous.

Dress bold es un sistema para realizar vestidores personalizable al máximo grado, con la posibilidad de composiciones a medida en soluciones lineales, ángulares y a C. Las posibilidades estéticas son dos: con montantes a vista o con paneles a pared, disponibles en cristal lacado, en madera y tejido. Los accesorios son libremente posicionables en los montantes a pared, gracias al sistema patentado de fijación a expansión sin agujeros.

3. Schiene in vetro laccato lucido caffè, struttura alluminio brown, ripiano in melaminico larice carbone / Back panel in caffè glossy lacquered glass, brown aluminium structure, shelves in coal larch melamine

4. Montanti a parete in alluminio brown, ripiano in melaminico larice carbone, senza schienale / Wall uprights in brown aluminium, shelves in coal larch melamine, without back panel

Composizioni estetiche Aesthetical compositions

1. Schiene in tessuto Lux T044 acciaio. Struttura alluminio 14 brown, ripiano in melaminico 25 larice carbone, frontal in vetro 99 caffè opaco, ceste in cuoio 152 argilla / Back panels in T044 acciaio Lux fabric, 14 brown aluminium structure, shelves in melamine 25 larice carbone, glass front in 99 caffè mat trays in 152 argilla leather

2. Struttura in 303 bronzo, schienali in tessuto lux T052 segale, ripiani in 07 olmo, ceste alte in 150 castoro leather, frontal in 136 bronzo opaco / Structure in 303 bronze, back panels in T052 segale Lux fabric, shelves in 07 olive, big trays in 150 castoro leather, fronts in glass 136 bronze opaco

3. Struttura in 83 piombo, schienali in tessuto lux T051 salvia, ripiani in 09 rovere grigio, ceste alte in 152 cuoio argilla, frontal in 127 piombo opaco Structure in 83 lead, back panels in T051 salvia lux fabric, shelves in 09 oak grey, big trays in 152 argilla leather, glass fronts in 127 lead opaco

Dettagli tecnici esclusivi
Exclusive technical details

Descrizione tecnica
Technical description

Il sistema Dress bold è caratterizzato dai mensoloni continui in melaminico con struttura in legno tamburato da 40 mm e dai basamenti con telaio continuo in alluminio.

Dress bold system is characterized by one-running melamine shelves with honeycomb wooden structure 40 mm thick and floor-bases with continuous aluminium frame.

Charakteristische Merkmale der Kollektion Dress bold sind die 40 mm starken, durchgehenden, melaminbeschichteten Fachböden in Wabenstruktur und die Basisböden mit durchgehendem Rahmen aus Aluminium.

Le système Dress bold est caractérisé par des étagères de mélamine continues avec structure en bois en nid d'abeille de 40 mm et des bases au sol avec structure en aluminium continue.

El sistema Dress bold se caracteriza por los estantes en melamina continuos con estructura en alveolar de 40 mm de espesor y por las bases con marco en aluminio continuo.

1. Particolare del pannello a parete in tessuto papiro con sistema di illuminazione a led nel lato superiore, ripiano in melaminico rovere grigio con illuminazione a led integrata. Montante e reggimensola in alluminio piombo, asta portabiti rivestita in cuoio rigenerato argilla / Detail of back panel in papiro fabric with upper led lighting system, grey oak melamine shelf with integrated led lighting. Upright and shelf holder in piombo lacquered aluminum, cloth-hanger rod covered with regenerated argilla leather
2. Basamento in cuoio rigenerato argilla, profilo perimetrale e zoccolo in alluminio piombo. Illuminazione a led opzionale Floor base in regenerated leather with extruded aluminium back and perimetric profile. Optional led lighting

3. Ripiano portascarpe in cuoio rigenerato argilla, profilo perimetrale e posteriore in alluminio piombo. Tondini di appoggio in acciaio inox. Illuminazione a led opzionale Shoe rack in regenerated leather with extruded aluminium back and perimetric profile. Optional led lighting

Componenti
Components

Montante a parete. Profilo elettrificato opzionale per cablaggio ripiani e basamenti / Wall upright. Optional electrified upright for shelves and floor base wiring

Pannello in melaminico o in tessuto Melamine or fabric panel

Pannello in vetro laccato o specchio Panel in lacquered glass or mirror

Illuminazione a led superiore per pannello, 3200° Kelvin (luce calda) Upper led lighting system for glass back panel, 3200° Kelvin (warm light)

Ripiano in cuoio rigenerato, profilo perimetrale in estruso di alluminio. Illuminazione a led opzionale / Shelf in regenerated leather with extruded aluminium perimetric profile. Optional led lighting

Ripiano in melaminico. Illuminazione a led opzionale / Shelf in melamine. Optional led lighting

Reggimensola, reggiasta e asta portabiti in alluminio con rivestimento opzionale in cuoio rigenerato / Supporting shelf, cloth hanger in aluminium with optional covering in regenerated leather

Basamento in cuoio rigenerato, profilo perimetrale e zoccolo in estruso di alluminio. Illuminazione a led opzionale Floor base in regenerated leather with extruded aluminium back and perimetric profile. Optional led lighting

Basamento in melaminico con zoccolo in alluminio estruso. Illuminazione a led opzionale / Base on feet melamine floor with structure in aluminium. Optional led lighting

Ripiano portascarpe in cuoio rigenerato, profilo perimetrale e posteriore in estruso di alluminio. Tondini di appoggio in acciaio inox. Illuminazione a led opzionale / Shoe rack in regenerated leather with extruded aluminium back and perimetric profile. Optional led lighting

Ripiano portascarpe in melaminico. Illuminazione a led opzionale Melamine shoe rack. Optional led lighting

Illuminazione a led 3200° Kelvin (luce calda) per ripiani, basamenti e ripiani portascarpe / Led lighting system, 3200° Kelvin (warm light), for shelves, floor bases and shoe rack

Reggimensola inclinato per ripiano portascarpe / Inclined shelf holder for shoe rack

Design Giuseppe Bavuso

The walk-in closet defined by lightness and compositional versatility. The uprights, always custom made in height from floor to ceiling, allow a free positioning of the accessories, both in number and height. The finishings available provide two aesthetic possibilities: a version with glass shelves and drawer units in mat or glossy lacquered glass to discover the great variety of the exclusive 70 Ecolorsystem colours, and, as an alternative, the version with accessories in melamine coal larch, grey oak or elm.

La cabina armadio all'insegna della leggerezza e della versatilità compositiva. I montanti, sempre su misura da terra a soffitto, permettono una libera disposizione delle attrezzature, nel numero e all'altezza desiderata. Le finiture previste invitano a due possibili interpretazioni estetiche: la versione con ripiani in vetro e cassetriere in vetro laccato lucido e opaco che permette di esplorare l'eccezionale varietà dei 70 colori esclusivi Ecolorsystem e, in alternativa, la versione con attrezzatura in melaminico larice carbone, rovere grigio o olmo.

Der begehbar Kleiderschrank definiert sich durch Leichtigkeit und kompositorische Vielseitigkeit. Die vertikalen Pfosten, werden immer auf Maß in der Höhe vom Boden bis zur Decke gefertigt und erlauben eine freie Platzierung den Zubehör, sowohl in der gewünschten Anzahl als auch Höhe. Für das Zubehör stehen Varianten mit Glasregalen und Schubladeneinheiten aus mattem oder glänzend lackiertem Glas in den 70 exklusiven Farben unseres Ecolorsystems zur Verfügung und alternativ auch Versionen in unseren drei Melamin Ausführungen Kohlärche, Eiche grau und Ulme.

Le dressing est défini par la légèreté et la polyvalence de la composition. Les montants toujours sur mesure en hauteur, fixés du sol au plafond, permettent une disposition libre de l'équipement, dans le nombre et à la hauteur désirées. Les finitions disponibles offrent deux possibilités esthétiques: une version avec des étagères en verre et les tiroirs en verre laqué mat ou brillant pour découvrir la grande variété des 70 couleurs exclusives Ecolorsystem, et, comme alternative, la version avec des accessoires en mélamine mélèze carbon, chêne gris ou orme.

El vestidor definido por la ligereza y la versatilidad compositiva. Los montantes, siempre hechos a medida en altura de suelo a techo, permita una colocación libre de los accesorios, tanto en número como en altura. Los acabados disponibles ofrecen dos posibilidades estéticas: una versión con estantes de vidrio y cajoneras en mate o cristal lacado brillante para descubrir la gran variedad de los exclusivos 70 colores Ecolorsystem, y, como alternativa, la versión con accesorios en melamina alicer carbón, gris roble y olmo.

Walk-in closets

Un nuovo valore architettonico per la cabina armadio: con la proposta monocolore nero, il sistema Zenit diventa un elemento stilistico di grande caratterizzazione degli ambienti. Ogni elemento del sistema è liberamente posizionabile, nel numero desiderato e all'altezza desiderata.

A new architectural value for the walk-in closet: with the black monochromatic proposal, the system Zenit becomes a stylistic element of big characterization of the habitats. A versatile system where each element can be freely positioned in the desired number and at the desired height.

Ein Schrankzimmer mit architektonischem Wert: In der Ausführung einfarbig schwarz wird das System Zenit zu einem wirkungsvollen innenarchitektonischen Gestaltungselement. Jedes Element ist frei sowie in Menge als auch in Höhe einsetzbar.

Une nouvelle valeur architecturale pour le dressing: avec la proposition mono couleur noir, le système Zenit devient un élément de style de grande personnalité, qui caractérise particulièrement les ambiances. Chaque élément peut être positionné en toute liberté selon la quantité et la hauteur désirées.

Un nuevo valor arquitectónico para el vestidor: con la propuesta en acabado negro, el sistema Zenit llega a ser un elemento estilístico de grande caracterización de los ambientes. Cada elemento del sistema es libremente posicionable, en el número y a la altura que se desea.

La cabina armadio Zenit amplia le proprie potenzialità progettuali con l'introduzione delle nuove attrezzature in cuoio rigenerato castoro o argilla. La gamma degli accessori, che come tutti gli elementi compositivi di Zenit consentono un libero posizionamento, comprende: barra portabiti, ripiani estraibili con organizer o vaschetta, cestini alti e bassi, portapantaloni, portacravatte e portascarpe.

Zenit walk-in closet widens its design potential with new accessories in regenerated castoro or argilla leather. The range of accessories, which allow a free positioning, like all the other elements for Zenit, includes: cloth hangers, pull out shelves with organizer or trays, big or small trays, trousers racks, tie racks and shoe racks.

Zenit Ankleide erweitert Planungsmöglichkeiten, danke zur Einführung den neuen Zubehör aus regeneriertem Leder castoro oder argilla. Die komplette Bandbreite der neuen Ausstattung kann, wie die bestehende Ausstattung, frei positioniert werden. Es besteht aus: Kleiderstangen, Auszugsböden, Organizer, Wannen, niedrige und hohe Körbe, Hose, Krawatte und Schuhregale.

Le dressing Zenit permet aussi de faire de compositions avec un nouvel équipement en cuir régénéré castoro ou argilla. La gamme d'accessoires, qui, comme tous les éléments de la composition de Zenit permettent un positionnement libre, comprend: les tiges, plateaux amovibles avec organizer ou vide poches, conteneurs hauts et bas, porte-pantalon, porte-cravate et porte-chaussures.

El vestidor Zenit amplia sus capacidades de diseño con la introducción de los nuevos equipos en cuero regenerado castoro o argilla. La gama de accesorios, que al igual que todos los elementos compositivos de Zenit permiten un posicionamiento libre, incluye: barras de colgar, estantes extraíbles con organizadores o bandejas, cestas altas y bajas, pantaloneros, corbateros y zapateros.

Struttura Structure: 14 brown
Ripiani Shelves : 25 melaminico larice carbone
Contentore Organizer: 15 noce
Separatore doppio, porta orologi, vaschetta concava, vaschetta con fessure in ecopelle castoro Double partition, watch holder, concave box and box with jewels slots available in eco-leather castoro

Flessibile, perché in grado di adattarsi a qualsiasi esigenza di spazio, versatile, perché grazie a materiali ricercati e finiture sofisticate consente una massima personalizzazione estetica, elegante, per i preziosi abbinamenti tra materiali e superfici diverse che contribuiscono ad esaltarne l'eccellenza: Zenit è la massima espressione della cabina armadio attrezzata.

Flexible, because adaptable to any space requirement, versatile, because, thanks to its refined materials and sophisticated finishings, it allows for a maximum aesthetic personalization, elegant, for the precious combinations of different materials and surfaces, thus helping to enhance the excellence: Zenit is the ultimate expression of equipped walk in wardrobe.

Zenit ist die optimale Ausdruck der ausgestatten Ankleide: Flexibel, weil sie zu jedem Raumsnotwendigkeit anpassen kann, vielseitige, danke zu ausgeklugelten Ausfuehrungen, die eine maximale Personalizierung erlauben, elegante, wegen wertvollen Kombinationen neben verschiedenen Materialien und Oberflaechen, die Exzellenz des Systems unterzeichnen.

Flexible, car il peut s'adapter à toutes les exigences de l'espace, polyvalent, parce que grâce à des matériaux raffinés et finitions sophistiquées permet une esthétique de personnalisation maximale, élégant, pour les combinaisons de valeur de différents matériaux et surfaces, qui contribuent à renforcer l'excellence: Zenit la meilleure expression du dressing équipé.

Flexible, ya que es capaz de adaptarse a cualquier necesidad de espacio, versátil, ya que gracias a los materiales refinados y los acabados sofisticados permite la máxima personalización estética, elegante, para las combinaciones de valor de diferentes materiales y superficies que ayudan a potenciar la excelencia: Zenit es la máxima expresión del vestidor equipado.

Struttura Structure: 09 melaminico rovere grigio
Maniglia Handle: 83 piombo
Struttura interna Internal structure: UB09 melaminico cuoio brown

Rimadesio presta da sempre un'attenzione particolare alla ricerca di nuove cromie e superfici materiche. Un'attenzione che si riflette anche nella garanzia di soluzioni sempre coordinate tra interno ed esterno dei contenitori, tra le finiture dei componenti metallici e in cuoio rigenerato, le essenze lignee e le laccature dei vetri.

Rimadesio has always paid particular attention to the search for new colors and material surfaces. This attention also comes out in the commitment of offering solutions that increasingly match the inside and the outside of the cabinets, the finishings of the metal and regenerated leather components, the woods and the lacquering of the glass.

Rimadesio hat immer auf neue Farben und Material Oberfläche aufgemerkt. Aufmerksamkeit, die sich durch koordinierte Farbskombinationen zwischen Innen und Außen, Metallen und Leder, Holz und lackierten Glaesern ausgedrueckt hat.

Rimadesio a toujours prêté une attention particulière à la recherche de nouvelles couleurs et surfaces de matériaux. Une attention qui se reflète également dans la garantie de solutions toujours coordonnées entre l'intérieur et l'extérieur des meubles, entre les finitions des composants métalliques et dans le cuir régénéré, les bois et le laquage du verre.

Rimadesio siempre ha prestado una especial atención a la búsqueda de nuevos cromias y superficies de materiales. Una atención que también se refleja en la garantía de soluciones siempre coordinadas entre el interior y el exterior de los contenedores, entre los acabados de los componentes metálicos y en el cuero regenerado, las esencias de madera y el lacado del vidrio.

Modularità
Modular structure

Le composizioni Zenit vengono sempre realizzate su misura in altezza, con possibilità di montanti a parete o a soffitto. Le mensole e le barre portabarti sono disponibili in tre larghezze, con inoltre la possibilità di riduzione a misura. Tutti gli altri componenti sono disponibili solo nella larghezza indicata.

Zenit compositions are always custom-made in height, with wall or ceiling uprights. Shelves and cloth hangers are available with three widths, with the possibility to reduce them. All the other elements are available only with the indicated width.

Zenit Anlage sind immer nach Mass in Hoehe, mit Wand oder Decke-Pfosten hergestellt. Fachböden und Kleiderstange sind mit drei Breiten verfügbare. Es ist auch möglich sie nach Mass zu kürzen. Die anderen Zubehörteile sind nur mit der angegebenen Breite verfügbar.

Les compositions Zenit sont toujours sur mesure en hauteur, avec les montants à fixation murale ou au plafond. Les étagères et les tiges porte-manteaux sont disponibles en trois largeurs avec la possibilité de les réduire sur mesure. Tous les autres accessoires sont disponibles seulement dans la dimension indiquée.

Las composiciones Zenit están siempre realizadas a medida en altura, con posibilidad de montantes a pared o a techo. Los estantes y las barras de colgar están disponibles en tres anchuras, con la posibilidad de reducción a medida. Los otros accesorios están disponibles sólo en la anchura indicada.

Abacus

Design Giuseppe Bavuso

With Abacus, the walk in closet becomes a room in lacquered glass, where extremely thin and rigorous geometric horizontal elements are placed. A project that is interpreted with a minimal style, coherent in every detail, starting from the accessories and the cabinets to organize the space, up to the led lighting system placed in the lower part of the shelves and integrated in the top part of the panels.

Con Abacus, la cabina armadio diventa una stanza di vetro lacato, in cui si innestano elementi orizzontali di minimo spessore e dal massimo rigore geometrico. Un progetto interpretato con uno stile minimale e coerente in ogni dettaglio, dagli accessori e i contenitori per l'organizzazione dello spazio armadio, al sistema di illuminazione a led presente nella parte inferiore delle mensole attrezzate e integrato alla sommità dei pannelli a parete.

Danke zu Abacus, kann man die Ankleide als einen Raum aus lackiertem Glas konzipieren, wo minimale, horizontale Elementen mit hoher geometrischen Strenge sich integrieren. Einer minimaler und in jeden Details kohärenter Projekt, von Zubehör und Containern, die Innenraum aufzustatten, bis zum LED Beleuchtung System bei Tablaren und Spitze den Paneelen.

Avec Abacus, le dressing devient une salle de verre laquée, avec des éléments horizontaux d'épaisseur minimale et de rigueur géométrique maximale. Un projet interprété avec un style minimal et cohérent dans les petits détails, des accessoires et des conteneurs pour l'organisation de l'espace nuit, au système d'éclairage à led, présent dans la partie inférieure des étagères et intégré en haut des panneaux de fond muraux.

Con Abacus, el vestidor se convierte en una estancia de vidrio lacado, en la que se insertan elementos horizontales de mínimo grosor y máximo rigor geométrico. Un proyecto realizado con un estilo mínimo y consistente en cada detalle, de los accesorios y contenedores para la organización del espacio armario, el sistema de iluminación LED en la parte inferior de los estantes e integrado a la parte superior de los paneles de pared.

Walk-in closets

Fra tecnologia e suggestione, nuove valenze stilistiche per gli ambienti dedicati all'ordine personale. Il sistema Abacus porta l'estetica del vetro Rimadesio verso nuove possibilità di interpretazione: la cabina armadio diventa una stanza di vetro laccato, in cui si insinano elementi orizzontali di minimo spessore e dal massimo rigore geometrico. Un progetto che anche dal punto di vista illuminotecnico è in grado di coniugare funzionalità e mood, grazie al sistema di illuminazione integrato nella parte superiore dei pannelli a muro, che si affianca alle lampade a led delle mensole.

Between technology and suggestiveness, new stylistic values for environments dedicated to personal space. The Abacus system takes Rimadesio's glass aesthetic towards new possibilities of interpretation: the walk-in wardrobe becomes a room of lacquered glass wherein extremely thin and rigorously geometric horizontal elements are placed. A design that is capable of combining functionality and mood from a lighting point of view, thanks to the built-in lighting system on the upper part of the wall panels, and the led lights on the shelves.

Zwischen Technologie und Anregung, neue stylistische Werte für personale Umgebungen. Das Abacus-System bringt die Ästhetik des Glases Rimadesio hin zu neuen Interpretationsmöglichkeiten: der Schrank wird zu einem Raum aus lackiertem Glas, wo horizontalen Elemente der Mindestdicke und geometrische Strenge das Heim gestalten. Ein Projekt, dass aus der Sicht Beleuchtung, die Fähigkeit hat, Funktion und Stimmung zu kombinieren, dank zu der oberen Beleuchtung, in den Wandpaneelen integriert, und der Led Beleuchtung der Fachböden.

Entre technologie et suggestion, nouvelles propositions stylistiques pour les ambiances dédiées au rangement. Nouvelles interpretations de l'esthétique du verre Rimadesio avec le système Abacus: le dressing devient une vraie pièce de verre laqué avec le mariage d'éléments horizontaux d'épaisseur très réduit avec un rigueur géométrique important. Un projet, que même sous un point de vue de l'éclairage, permet de marier fonctionnalité et humeur, grâce au système d'éclairage intégré dans la partie supérieure des panneaux au mur en plus de lampes led des étagères.

Entre tecnología y sugerión, nuevos valores estilísticos para los ambientes dedicados a los entornos personales. El sistema Abacus lleva la estética del cristal Rimadesio hacia nuevas posibilidades de interpretación: el vestidor se convierte en una habitación de cristal lacado, donde se mezclan elementos horizontales de espesor mínimo y del máximo rigor geométrico. Un proyecto que también desde el punto de vista de iluminación técnica tiene la capacidad de combinar funcionalidad y el estado de ánimo, gracias al sistema de iluminación integrado en la parte superior de los paneles a pared, que se adjunta a las lámparas led de los estantes.

Struttura Structure: 16 bianco latte
Pannelli e cassetiere Back panels and drawer units: 108 bianco latte opaco
Ripiani Shelves: 16 bianco latte
Interno cassetti Internal drawers:
UB09 melaminico cuoio brown

Struttura *Structure*: 30 alluminio
Pannelli e cassettiere *Back panels and drawer units*: 106 tortora opaco
Ripiani *Shelves*: 57 tortora
Accessori estraibili *Pull out accessories*: 152 rigenerato argilla
Frontali *Fronts*: 106 tortora opaco
Aste portabiti in acciaio inox rivestito in cuoio rigenerato argilla
Cloth-hanger rods in stainless steel covered with regenerated argilla leather

Una cabina armadio che diventa sistema per arredare spazi di lavoro o commerciali come negozi o showroom: Abacus è una soluzione in continua evoluzione nella quale gli accessori e i materiali sofisticati ed eleganti, come l'esclusivo cuoio rigenerato argilla, assicurano eleganza e flessibilità in qualsiasi contesto.

A walk in wardrobe becoming a system to decorate workspaces or commercial shops and showrooms: Abacus is a always evolving solution, in which the accessories and the sophisticated and elegant materials, such as the exclusive regenerated leather argilla, provide for elegance and flexibility in any context.

Ein Ankleidessystem, das Einrichtungssystem fuer Geschaefte oder Showroom sein kann: Abacus ist eine Loesung auf staendiger Entwicklung, wo exklusiven, ausgekuegelten und eleganten Zubehoeren und Materialien, wie regenerierter Leder argilla, Eleganz und Flexibilitaet in jeder Situation versichern.

Le dressing qui devient un systeme pour le project des espaces de travail ou des magasins commerciaux ou des showroom: Abacus est une solution en evolution constante, dans laquelle les accessoires et les materiaux sophistiques et elegants, tels que le cuir regenerer argilla, offrent elegance et flexibilite dans tout le contexte.

Un vestidor que se convierte en el sistema para amueblar espacios de trabajo o comerciales tales como tiendas y exposiciones: Abacus es una solución en continua evolución en la que los accesorios y los materiales sofisticados y elegantes, como el exclusivo cuero regenerado argilla, proporcionan elegancia y flexibilidad en cualquier contexto.

Modularità Modular structure

Descrizione tecnica Technical description

La modularità del sistema Abacus si basa su pannelli a parete in vetro laccato disponibili in quattro larghezze e tre altezze. È inoltre previsto il taglio a misura in larghezza. Uno schema dimensionale che assicura la massima libertà progettuale, per consentire di inserire le composizioni in ogni tipo di spazio.

The modularity of the Abacus system is based on the wall panels in lacquered glass, available in four widths and three different heights. The custom-size cut is also provided. A dimensional plan that ensures the maximum flexibility, in order to allow to use the compositions in every type of space.

Die Modularität des Abacus Systems basiert auf lackierten Glasplatten in vier Breiten und drei Höhen. Es ist auch für den Zuschnitt in der Breite zur Verfügung gestellt. Ein dimensionales Schema, das maximale Designfreiheit gewährleistet, um zu ermöglichen, die Zusammensetzung in jeder Art von Raum zu verwirklichen.

La modularité du système Abacus est basée sur des panneaux à mur en verre laqué disponibles en quatre largeurs et trois hauteurs. Il est également prévu la découpe sur mesure en largeur. Un schéma dimensionnel qui assure un maximum de liberté de conception, afin de permettre d'insérer les compositions dans tout type d'espace.

La modularidad del sistema Abacus se base en paneles a pared en cristal lacado disponibles en cuatro anchos y tres alturas. Además está previsto el corte a medida en ancho. Un esquema dimensional que asegura la máxima libertad de diseño, para permitir colocar las composiciones en todo tipo de espacio.

Finiture Finishes

Particolare del pannello a parete in vetro laccato opaco tortora con sistema di illuminazione a led nel lato superiore, ripiano laccato opaco tortora con lampada led incassata nello spessore. Asta portabiti in acciaio inox spazzolato rivestita in cuoio rigenerato argilla / Detail of back-panel in tortora mat lacquered glass with upper led lighting system, tortora lacquered shelf with Led lamp recessed into the thickness. Cloth hanger rod in brushed stainless steel covered with regenerated argilla leather

Ingombri tecnici Technical encumbrances

Calcolo della lunghezza della mensola e del pannello A
L mensola / L pannello = L vano minima – 1000 – 1000 – 40 mm

shelf W / panel W = minimum opening W – 1000 – 75 mm

Componenti Components

1.

2.

3.

4.

1. Cassettiera sospesa in vetro laccato temperato con cassetto push a estrazione totale / Suspended chest of drawers in tempered lacquered glass with push drawers fitted with fully extractable runners
2. Basamento in legno laccato con zoccolino continuo in alluminio. / Floor base in lacquered wood with running aluminium skirting.
3. Ripiano con organizer e cesto basso estraibili con frontalini in vetro e rivestimento in cuoio rigenerato / Pull out shelf with organizer and small tray with glass fronts and covered with regenerated leather
4. Ripiano e portapantaloni estraibili con frontalini in vetro e rivestimento in cuoio rigenerato / Pull out shelf and trousers rack with glass fronts and covered with regenerated leather

Componenti Components

Pannello in vetro laccato e temperato, struttura in estruso di alluminio anodizzato. Profilo laterale in alluminio laccato
Panel in lacquered and tempered glass, structure in extruded anodized aluminium. Lacquered aluminium side profile

Asta portabiti per ripiano, in alluminio o in acciaio inox spazzolato / Clothes-hanger rod for shelf, in aluminium or in brushed steel

Lampada a led per ripiano laccato. Led spotlight for lacquered shelves.

Asta portabiti a soffitto in acciaio inox spazzolato (H soffitto max 3000) Ceiling clothes-hanger rod in brushed steel (H ceiling max 3000)

Illuminazione superiore a led
Upper led lighting

Basamento in legno tamburato con zoccolo in alluminio estruso
Floor base in honeycomb wood and structure in extruded aluminium

Ripiano con organizer e cesto basso estraibili con frontalini in vetro e rivestimento in cuoio rigenerato / Pull out shelf with organizer and small tray with glass fronts and covered with regenerated leather

Ripiano in vetro e portapantaloni in alluminio estraibili / Pull out glass shelf and aluminium trousers rack

Walk-in closets

Abacus

Ripiano laccato e stratificato in MDF, rivestito da una doppia lastra di alluminio. Illuminazione a led opzionale
Multilayer lacquered shelf in MDF, covered by a double aluminium sheet. Optional led lighting

Asta portabiti per ripiano, in alluminio o in acciaio inox spazzolato / Clothes-hanger rod for shelf, in aluminium or in brushed steel

Cesta e vassoio in cuoio rigenerato. Regenerated leather box and tray.

Base attrezzata con cassetto push a estrazione totale, in vetro laccato temperato con zoccolo in alluminio estruso
Floor base equipped with push drawer fitted with fully extractable runners, in tempered lacquered glass with extruded aluminium structure

Base attrezzata per angolo con cassetto push a estrazione totale, in vetro laccato temperato con zoccolo in alluminio estruso
Corner floor base equipped with push drawer fitted with fully extractable runners, left and right version, in tempered lacquered glass with extruded aluminium structure

Cassettiera sospesa in vetro laccato temperato con cassetto push a estrazione totale / Suspended chest of drawers in tempered lacquered glass with push drawers fitted with fully extractable runners

Perseguire la qualità, sempre, sotto tutti gli aspetti. Con questa missione Rimadesio ricerca costantemente soluzioni volte a migliorare i propri standard qualitativi ecologici. Obiettivo ottenuto sinergicamente, grazie all'utilizzo di materiali preziosi e riciclabili, all'assenza di sostanze tossiche per l'uomo e nocive per l'ambiente in ogni fase del processo produttivo,

Streben nach Qualität, unter allen Gesichtspunkten. Mit dieser Mission forscht Rimadesio ständig nach ökologischen Lösungen. Ein Ziel, welches sich aus Synergien ergibt, dank der Verwendung von hochwertigen und recycelbaren Materialien, dem Ausschluss von für den Menschen giftigen und umweltschädlichen Substanzen und den Antrieb der Produktions-

Poursuivre la qualité, toujours, et à tous les égards. Avec cette mission Rimadesio recherche constamment de solutions au fin d'améliorer ses normes de qualité écologique. Objectif atteint, grâce à l'utilisation de matériaux précieux et recyclables, l'absence à chaque étape de la production de substances toxiques nocives pour l'homme et l'environnement, l'utilisation de technologies

Perseguir la calidad, siempre, en todos los aspectos. Con esta misión Rimadesio busca constantemente soluciones destinadas a mejorar sus estándares de calidad ecológica. Objetivo conseguido sinéricamente, gracias al uso de materiales preciosos y reciclables, a la ausencia de sustancias tóxicas para los seres humanos y nocivas para el medio ambiente en cada etapa

Quality as main purpose, always and in every aspect. With this mission Rimadesio is constantly searching for solutions to improve its own ecological standards.

all'impiego di tecnologie e macchinari evoluti alimentati con energia pulita proveniente da impianti fotovoltaici di ultima generazione, installati sulla copertura dell'headquarter di Giussano. Alluminio, vetro, legno, cuoio rigenerato, materiali totalmente riciclabili e in parte già riciclati, ma anche le vernici prive di solventi di Ecolorsysteem e i sistemi di imballaggio ecologici. Testimonianze di un dna green consolidato e di una coerenza trasversale, segnali di una continua attività di ricerca e di uno sguardo sempre proteso al futuro che si declina nell'innovazione tecnologica di sistemi, porte ed arredi, realizzati con la consapevolezza di voler affidare all'uomo solo attività dall'alto valore aggiunto.

anlagen mit sauberem Strom, welcher durch Photovoltaikanlagen neuester Generation erzeugt wird. Aluminium, Glas, Holz, recyceltes Leder, völlig recycelbare oder schon recycelte Materialien, aber auch die lösungsmittelfreien Farben des Ecolorsystems und die umweltfreundlichen Verpackungsmaterialien.

Alles Belege für eine fundierte grüne Dna und in einem übergreifenden Zusammenhang. Zeichen für eine kontinuierliche Forschungsaktivität und einen zukunftsorientierten Blick, die sich in den Innovativen der technischen Systemen, der Türen und Möbeln ausdrücken, welche mit dem Bewusstsein entwickelt werden, dem Menschen den größtmöglichen Zusatznutzen zu bieten.

et des machines avancées alimentées par l'énergie solaire après l' installation sur le toit de l'usine à Giussano de systèmes photovoltaïques de dernière génération. Aluminium, verre, bois, cuir régénéré, des matériaux entièrement recyclables et déjà en partie recyclés, mais aussi peinture Ecolorsysteem sans solvantset systèmes d'emballage respectueux de l'environnement. Témoignages d'un adn "vert" consolidé et d'une cohérence transversale, signes de recherche continue et d'une tendance à regarder en avant, qui correspond bien à l'innovation technologique des systèmes, des portes et des meubles, réalisés avec la conscience que l'apport de l'homme dans la production ne peut qu'avoir un valeur ajoutée.

del proceso de producción, al uso de tecnologías y máquinas avanzadas alimentadas por energía limpia a partir de sistemas fotovoltaicos de última generación, instalados en la cobertura del headquarter de Giussano. Aluminio, cristal, madera, cuero regenerado, materiales completamente reciclables y, en parte, ya reciclados, sino también las pinturas Ecolorsysteem libres de disolventes y los sistemas de embalaje ecológicos. Testimonios de un adn green consolidado y una coherencia transversal, señales de una continua investigación y de una vista siempre tendida al futuro que se declina en la innovación tecnológica de sistemas, puertas y muebles, realizados con el conocimiento que desea confiar al hombre sólo actividades de alto valor añadido.

Objective obtained thanks to the use of precious and recyclable materials, to the absence of substances that can be toxic to humans or harmful to the environment in every phase of the productive process, to the use of technology and evolved machinery, powered by clean energy derived from latest generation photovoltaic systems, installed on Giussano headquarters roof. Aluminium, glass, wood, regenerated leather: fully recyclable materials and partly already recycled, but also Ecolorsysteem paints without solvents and ecological packing materials. Proofs of a reinforced green dna and wide coherence, signals of a continuous research and a glance directed to the future, that takes shape in the technological innovation of systems, doors and furniture, made with the awareness to entrust just high added value activities.

Vetri temperati
Tempered glasses

Vetri singoli, sottoposti al trattamento della tempra ovvero ad una cottura alla temperatura di 650° C. Resistenza meccanica di 5 volte superiore rispetto ad un vetro normale. In caso di rottura si rompe in molti frammenti inoffensivi. Conforme alle norme UNI EN ISO 12150, UNI 7697 e UNI EN 12600 in materia di sicurezza per i vetri d'arredamento.

Single tempered glasses, in other words cooked at a temperature of 650° C. Mechanical resistance 5 times superior in comparison to a normal glass. In case of breaking it actually crumbles in harmless tiny fragments. In accordance with the UNI EN 12150, UNI 7697 and UNI EN 12600 rules with reference to the security of glasses for decoration purposes.

Einzelgläser, die einer Härtungsbehandlung oder einer Kochtemperatur von 650° C unterzogen wurden. Mechanische Beständigkeit 5 mal höher als bei normalem Glas. Im Bruchfall zerbröckeln harmlose Bruchstücke in Minuten. Entspricht den Normen UNI EN 12150, UNI 7697 und UNI EN 12600 für die Sicherheit von Möbelgläsern.

Verres simples, soumis au traitement de trempe et donc à une température de cuisson de 650° C. Résistance mécanique 5 fois supérieure à celle du verre normal. En cas de rupture, des fragments inoffensifs s'éffritent en quelques minutes. Conforme aux normes UNI EN 12150, UNI 7697 et UNI EN 12600 pour la sécurité des verres pour les meubles.

Vidrios simples, sometidos al tratamiento de templado a una temperatura de cocción de 650° C. Resistencia mecánica de 5 veces mayor que el vidrio normal. En caso de rotura, se desmoronan fragmentos inofensivos. Conforme a las normas UNI EN 12150, UNI 7697 y UNI EN 12600 en materia de seguridad para los cristales en el amueblamiento.

Vetri stratificati
Laminated glasses

Vetri doppi. Fra i due vetri è inserita una sottile pellicola di materiale plastico, trasparente ed invisibile, cheaderisce completamente alle due superfici. Entrambe le superfici sono perfettamente lisce. Resistenza alla rottura conforme alle norme UNI EN ISO 12543, UNI 7697 e UNI EN 12600. La pellicola di materiale plastico in caso di rottura trattiene i frammenti.

Double glasses. Between the two glasses a thin plastic film is inserted. Transparent and invisible, it perfectly sticks to both surfaces. Both surfaces are perfectly smooth. Resistance to breaking in accordance with the UNI EN ISO 12543, UNI 7697 and UNI EN 12600 rules. The plastic film withholds the fragments in case of breaking.

Doppelgläser. Zwischen den beiden Gläsern befindet sich ein dünner Film aus transparentem und unsichtbarem Kunststoff, der vollständig an den beiden Oberflächen haftet. Beide Oberflächen sind komplett glatt. Die Bruchfestigkeit entspricht den Normen UNI EN ISO 12543, UNI 7697 und UNI EN 12600 in materia di sicurezza per i vetri d'arredamento.

Single tempered glasses, in other words cooked at a temperature of 650° C. Mechanical resistance 5 times superior in comparison to a normal glass. In case of breaking it actually crumbles in harmless tiny fragments. In accordance with the UNI EN 12150, UNI 7697 and UNI EN 12600 rules with reference to the security of glasses for decoration purposes.

Einzelgläser, die einer Härtungsbehandlung oder einer Kochtemperatur von 650° C unterzogen wurden. Mechanische Beständigkeit 5 mal höher als bei normalem Glas. Im Bruchfall zerbröckeln harmlose Bruchstücke in Minuten. Entspricht den Normen UNI EN 12150, UNI 7697 und UNI EN 12600 für die Sicherheit von Möbelgläsern.

Alluminio
Aluminium

Finitura anodizzata
Resistenza all'abrasione della finitura anodizzata conforme alla norma.
Resistenza alla corrosione della finitura anodizzata conforme alla norma.

Finitura laccata a polvere
Resistenza al distacco dello strato di vernice a polvere conforme alla norma.
Resistenza alla corrosione della vernice a polvere conforme ai risultati del Machu Test e alla norma. Resistenza all'impronta della vernice a polvere conforme alla norma.

Finitura metallo spazzolato
La finitura metallo spazzolato è una nuova interpretazione dell'alluminio, ottenuta con un processo di verniciatura e spazzolatura effettuata a mano, per evocare nel metallo un'idea di vissuto e di manualità. Le variazioni di colore sono quindi una caratteristica di questa esclusiva finitura. Colori ecologici perché prodotti utilizzando esclusivamente vernici all'acqua di ultima generazione, con cottura a 70°. Una tecnologia produttiva all'avanguardia, con impianti interni robotizzati che assicurano risultati di altissima qualità e un ciclo di lavorazione a basso impatto ambientale.

Black Nickel finish
The black nickel is obtained with a galvanic treatment and the polishing of the aluminum. At the end of the procedure a protective painting is applied.

Eloxertes Finish
Die Abriebfestigkeit der anodisierten Oberfläche entspricht der Norm. Korrosionsbeständigkeit der Standard-Eloxal-Oberfläche.

Pulverlackierung
Standardgemäß Beständigkeit gegen das Ablösen der Pulverbeschichtungsschicht. Korrosionsbeständigkeit der Pulverbeschichtung gemäß den Ergebnissen des Machu-Tests und des Standards. Die Beständigkeit gegenüber dem Abdruk der Pulverbeschichtung entspricht dem Standard.

Finitura alluminio lucido
L'alluminio lucido viene realizzato mediante la spazzolatura e la brillantatura dell'alluminio, entrambi processi artigianali eseguiti tramite impianti di ultima generazione.

Finitura nickel nero
Il nichel nero è ottenuto con il trattamento galvanico e la brillantatura dell'alluminio. Al termine del processo viene applicata una verniciatura protettiva.

Anodized finishing
Abrasion resistance of the anodised finish conforms to the norm.
Corrosion resistance of the anodised finish conforms to the norm.

Powder lacquered finish
Detachment resistance of the layer of powder paint conforms to the norm.
Corrosion resistance of the powder paint conforms to Machu test results and to the norm. Fingerprint resistance of the powder paint conforms to the norm.

Brushed metal finish
The brushed metal finish is a new interpretation of the aluminum, obtained with an handmade painting and brushing process, to evoke in the metal an idea of experience and dexterity. The color variations are therefore a feature of this exclusive finish. Ecological colors since they are produced using exclusively water-based paints of the latest generation, with 70° cooking.

A forefront production technology, with robotic internal systems that ensure the highest quality results and a low environmental impact cycle.
Corrosion resistance of the water-based paint finish conforms to the norm.
Temperature changes resistance of the water-based paint finish conforms to the norm. Resistance to the detachment of the water-based paint layer, verified by a pre-and-post-aging process before and after aging. Wear resistance of the water-based paint layer by rubbing according to the Catas procedure. Resistance to detergents paint water conforms to the norm.

Finitura lacquata a polvere
Résistance à l'abrasion de la finition anodisée est conforme à la norme.
Résistance à la corrosion de la peinture à poudre conforme au Machu test et à la norme. Résistance à l'empreinte de la peinture à poudre conforme à la norme.

Finitura metallo spazzolato
The glossy aluminum is realized through the procedure of brushing and polishing of the aluminum, both artisanal processes carried out through last generation plants.

Black Nickel finish
The black nickel is obtained with a galvanic treatment and the polishing of the aluminum. At the end of the procedure a protective painting is applied.

Eloxertes Finish
Die Abriebfestigkeit der anodisierten Oberfläche entspricht der Norm. Korrosionsbeständigkeit der Standard-Eloxal-Oberfläche.

Pulverlackierung
Standardgemäß Beständigkeit gegen das Ablösen der Pulverbeschichtungsschicht. Korrosionsbeständigkeit der Pulverbeschichtung gemäß den Ergebnissen des Machu-Tests und des Standards. Die Beständigkeit gegenüber dem Abdruk der Pulverbeschichtung entspricht dem Standard.

Gebürstetes Metall-Finish
Das gebürstete Metallfinish ist eine Neuinterpretation von Aluminium, das durch einen von Hand ausgeführten Lackier- und Bürtprozess erhalten wird, um im Metall eine Idee von Erfahrung und Fingerfertigkeit hervorzurufen. Die Farbvariationen sind daher ein Merkmal dieses exklusiven Finishes.

Eloxertes Finish
Es werden umweltfreundliche Farben benutzt, da sie mit ausschließlich waserbasierten Farben der neuesten Generation, bei 70°, hergestellt werden.

Anodized finishing
Abrasion resistance of the anodised finish conforms to the norm.
Corrosion resistance of the anodised finish conforms to the norm.

Powder lacquered finish
Detachment resistance of the layer of powder paint conforms to the norm.
Corrosion resistance of the powder paint conforms to Machu test results and to the norm. Fingerprint resistance of the powder paint conforms to the norm.

Caratteristiche

Ecolorsyste è la denominazione che contraddistingue l'esclusiva collezione di laccature opache Rimadesio, realizzate su componenti metallici, in legno e plastic. Colori ecologici perché prodotti utilizzando esclusivamente vernici all'acqua di ultima generazione, con cottura a 70° C. Una tecnologia produttiva all'avanguardia, con impianti interni robotizzati che assicurano risultati di altissima qualità e un ciclo di lavorazione a basso impatto ambientale.

Resistenza alla corrosione della vernice ad acqua conforme alla norma UNI EN ISO 9227.

Resistenza agli sbalzi di temperatura della vernice ad acqua conforme alla norma UNI 9429.

Resistenza al distacco dello strato di vernice ad acqua verificato tramite processo di quadratura prima e dopo l'invecchiamento conforme alla norma UNI EN ISO 2409.

Resistenza all'usura dello strato di vernice ad acqua mediante sfregamento secondo procedura Catas.

Resistenza ai detergenti della vernice ad acqua conforme alla norma EN 12720.

Characteristics

Ecolorsyste is the name that distinguishes the exclusive Rimadesio lacquering collection in mat finishing, realized on metallic, wooden and plastic components. Ecological colours produced using exclusively water paints of latest technology, cooked at 70° C.

A modern production technology, with fully robotised in-house plants that ensures very high quality results and a low environmental impact work cycle.

Resistance to corrosion of the water paint in compliance with UNI EN ISO 9227 regulation.

Resistance to temperature leap of water paint in compliance with UNI 9429 regulation.

Resistance to detachment of the layer of water paint checked through the cross-cut test before and after the ageing in compliance with UNI EN ISO 2409 regulation.

Resistance to use of the layer of water paint by rubbing according to Catas procedure.

Resistance to detergent of water paint in compliance with EN 12720 procedure.

Ecolorsyste ist die Bezeichnung, welche die exklusive Kollektion der matt lackierten Metall-, Holz- und Kunststoffkomponenten von Rimadesio auszeichnet.

Umweltfreundliche Farbpallette, weil bei der Produktion ausschließlich auf 70° erhitzte, wasserlösliche Lacke der neuesten Generation verwendet werden.

Eine fortschrittliche Produktionstechnologie mit Robotern welche Ergebnisse höchster Qualität und mit geringstmöglichen Umweltbelastungen sicherstellt.

Korrosionsresistente, wasserbasierte Lacke gemäß der EU-Norm UNI EN ISO 9227.

Temperaturwechselresistente, wasserbasierte Lacke gemäß der EU-Norm UNI 9429.

Die verwendeten Lacke sind gemäß der EU-Norm UNI EN ISO 2409 resistent gegen Ablösung der Lackoberfläche vor und nach dem Alterungssprozess.

Resistent bei der Verwendung des Lackes auf Wasserbasis, auf Reibung nach dem Catas Verfahren.

Resistenz des Lackes auf Wasserbasis, auf Waschmittel laut Norm EN12720.

Charakteristik

Ecolorsyste ist die Bezeichnung, welche die exklusive Kollektion der matt lackierten Metall-, Holz- und Kunststoffkomponenten von Rimadesio auszeichnet.

Couleurs écologiques parce qu'ils sont fabriqués en utilisant des peints à base d'eau de dernière génération, avec un cuison de 70°.

Colores ecológicos porque producidos usando solamente lasas base de agua de última generación, con cocion a 70°.

Una tecnología productiva a la vanguardia, con sistemas internos robóticos que aseguran resultados de altísima calidad y un ciclo de producción de bajo impacto ambiental.

Resistencia a la corrosión de la pintura a base de agua conforme a la norma UNI EN ISO 9227.

Resistencia a los cambios de temperatura de la pintura al agua de conforme a la norma UNI 9429.

Résistance aux écarts de température de la peinture à base d'eau en conformité avec la norme UNI EN ISO 9227.

Résistance au décollement de la couche de peinture à base d'eau, testée par le processus de coupe transversale avant et vieillissement après en conformité avec la norme UNI EN ISO 2409.

Résistance au décollement de la couche de peinture à l'eau par frottement selon la procédure Catas.

Résistance aux détergents de la peinture à l'eau conforme à la norme EN 12720.

Characteristiques

Ecolorsyste est le nom qui caractérise la collection exclusive Rimadesio de laques mates sur pièces métalliques, en bois et en plastique.

Colores ecológicos porque

producidos usando solamente

lasas base de agua de última

generación, con cocion a 70°.

Una tecnología productiva a la vanguardia, con sistemas internos robóticos que aseguran

resultados de altísima calidad y un ciclo de producción de bajo impacto ambiental.

Resistencia a la corrosión de la pintura a base de agua conforme a la norma UNI EN ISO 9227.

Resistencia a los cambios de temperatura de la pintura al agua de conforme a la norma UNI 9429.

Résistance à la corrosion de la peinture à base d'eau en conformité avec la norme UNI EN ISO 9227.

Résistance au décollement de la couche de peinture à base d'eau, vérifiée par le moyen du processus de adherencia antes y después del envejecimiento conforme a la norma UNI EN ISO 2409.

Résistance au décollement de la capa de la pintura de agua mediante el roce según el procedimiento Catas.

Resistencia a los detergentes de la pintura al agua conforme a la norma EN 12720.

Características

Ecolorsyste es la denominación que distingue la exclusiva colección de laca mate Rimadesio, realizadas sobre componentes metálicos, en madera y plásticos.

Colores ecológicos porque

producidos usando solamente

lacas base de agua de última

generación, con cocion a 70°.

Una tecnología productiva a la vanguardia, con sistemas internos robóticos que aseguran

resultados de altísima calidad y un ciclo de producción de bajo impacto ambiental.

Resistencia a la corrosión de la pintura a base de agua conforme a la norma UNI EN ISO 9227.

Resistencia a los cambios de temperatura de la pintura al agua de conforme a la norma UNI 9429.

Résistance à la corrosion de la peinture à base d'eau en conformité avec la norme UNI EN ISO 9227.

Résistance au décollement de la couche de peinture à base d'eau, testée par le moyen del proceso de adherencia antes y después del envejecimiento conforme a la norma UNI EN ISO 2409.

Résistance au décollement de la capa de la pintura de agua mediante el roce según el procedimiento Catas.

Resistencia a los detergentes de la pintura al agua conforme a la norma EN 12720.
