

KartellKIDS

Kartell KIDS

Kartell è da sempre legata a dimensioni dell'esperienza propria del bambino con concetti che ruotano intorno ai temi dell'esplorazione, della ricerca, e dell'innovazione. I prodotti Kartell sono di per sé oltre che funzionali anche ludici, divertenti, emozionanti. Da qui nasce il desiderio di riprendere un progetto che appartiene alla storia dell'azienda creando una nuova linea dedicata al mondo bambino con nuovi protagonisti e adattamenti di prodotti iconici.

Kartell has always been close to the experiential spheres associated with children, through concepts hinged on the themes of exploration, research and innovation. As well as being functional, Kartell's products are intrinsically playful, fun and engaging. That's why Kartell chooses to recover a project belonging to its history creating a new line for kids with specifically designed furnishings and adaptations of the brand's iconic products.
